OUR TRAINING METHODOLOGY

Emphasis is on practical skills. Plenary presentation and group work with the use of templates, and practical tools will be supplemented with knowledge transfer activities and tasks which participant will develop and implement in their work.

Our package is results-oriented and hands-on, enabling our trainees and partners to learn and apply the skills gained on conclusion of the exercise planned. The organization provides a depth of collective technical expertise and experiences as well as and demonstrated ability to work in a variety of cultural settings.

After-Training, follow-up and remedial coaching will be offered to participants on request.

Our training approach is highly practical and participatory. We focus on real issues and help participants to apply the techniques learned. Our facilitation approach is innovative and will impart both theory and practical skills. | Among the elements of this unique approach are the following:

- **Our facilitation methodology is highly participatory and interactive and combines adult learning methodologies. The adult learning styles model emphasizes emotional and sociological attributes. Researchers have classified adult learners into five distinct types.**
- **Role plays**
- **Story telling**
- **Use of examples**
- **Plenary presentations**
- **Building on participants past experiences.**
- **Experiential games**

All our trainers have hands on work experience with International development organizations
